Garden Step

Stepladder for garden use

REGISTERED DESIGN

MADE IN FRANCE

Ideal for trimming the hedges, picking, for gardening or indoor use.

Garden Step

The first stepladder designed by gardeners for gardeners *. With attractive features for gardening, Garden Step can also be used indoors.

Specialy designed for garden use...

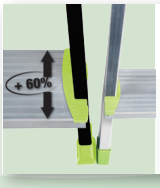
Unique garden feet that do not dig into the ground and are stable in irregular floors. During indoor use the feet can easily removed.

INDOOR USE

OUTDOOR USE

Tooltray with enough space to put all your gardening tools and **a detachable basket.**

Maximal comfort



Steps are **60 % wider** than a traditional stepladder. Lacquered aluminium : **keeps hands clean.** Easy to transport and store thanks to the back part of the stool which can be clipped behind the steps

7 models deposited
